Wired connection

Tech support team

Save time and effort, ensure the MEK STRATUS's accuracy, and troubleshoot issues via the cloud with our expert help.

BTG STRATUS App

Stay in complete control with our easy-to-use mobile app.

MEK STRATUS

Our most powerful inline consistency transmitter ever:

- Compact and lightweight
- Wireless connectivity
- No need for sealing water

BTG STRATUS Field Interface

Optional full-screen display to manage the MEK STRATUS.

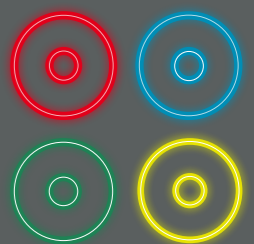

Reach new heights of reliability with the cloud-connected MEK STRATUS. Ensure **product uniformity** and reach **sky-high efficiency** with a consistency sensor that's built to last. **Twice the torque** means it operates reliably, even in difficult conditions. Respond faster with **real-time insights** that you can access anywhere.

Did you know?

Digital transformation in the pulp and paper industry can:

- Boost throughput by **10% to 30%**
- Improve cost of quality by **10% to 20%**
- Reduce machine downtime by **up to 50%**
